

OUR EXAMINATION PARTNERS

CC Learning offers you the ability to gain a range of world class qualifications to provide you with professional credentials to help you in your career. These are our partners:

AXELOS is a joint venture between the UK Government and Capita, a UK professional services company. It is the successor organisation to the UK Govt. agency the OGC / Office Government Commerce. AXELOS owns PRINCE2®, MSP®, MoP®, P3O®, ITIL® and other project, programme and information systems related methods, standards and frameworks. www.Axelos.com.

PeopleCert is the EI / Examination Institute which runs the examination schemes for AXELOS and accredits **ATOs / Authorised Training Organisations**, such as CC Learning; and validates **Approved Trainers**, who you will meet during your CC Learning course. www.Peoplecert.org.

APMG International is a global examination organisation, and was the original PRINCE2 examination institute until January 2018 when Axelos awarded the sole mandate to Peoplecert. APMG no longer offers Axelos examinations. It is the administrator for the New Zealand Treasury and UK HM Treasury **Better Business Cases** product plus 40+ other professional qualifications. These include **AgilePM, Managing Benefits, Change Management** and the **Praxis** project, programme and portfolio product. It is the Examination Partner for the APM's **Project Planning and Control** qualification. APMG also accredits **ATOs / Authorised Training Organisations** and **Approved Trainers** for its qualifications. www.apmg-international.com

Both **AXELOS / Peoplecert** and **APMG** use the format of **Foundation** [starting level] and **Practitioner** [higher level] to describe their qualifications. In addition AXELOS / PeopleCert have a number of **Advanced Practitioner** and other similarly named qualifications.

APM is the UK's Association for Project Management, The Chartered Body for the Project Profession. It holds a Royal Charter and is the apex body of the UK's project profession. It offers both professional membership grades to individuals and project related qualifications. In 2018 it started offering the opportunity for suitably experienced and qualified individuals to gain **Chartered Project Professional** status. It partners with the APMG as its examination organisation to offer the **Project Planning and Control™** qualification. www.apm.org.uk.

PMI® is the Project Management Institute, a USA based professional organisation that operates on a global basis. The **PMINZ**, Project Management Institute, New Zealand, is a country Chapter unit of the PMI®. The PMI® offers both professional membership grades to individuals and project related qualifications. The best known is the **PMP® – Project Management Professional**, along with the lower level **CAPM® – Certified Associate Project Management**. The PMI® has a scheme for **R.E.Ps – Registered Education Providers** to offer training for its qualifications. CC Learning is a R.E.P. PMI®'s exams are administered directly by the PMI® and are separate from the training course. www.pmi.org.

Both the APM and the PMI® based their qualifications on the core reference publication for each organisation: **PMI® – PMBoK® v6** and the **APM's BoK v6**. These are not text books or course books; they document the key ideas of project management and related disciplines which both organisations then use as the basis for the syllabi of their qualifications and credentials, and membership application criteria.

If your CC Learning course or workshop is identified as “**Certified**” it means that you have the option of taking the relevant examination to get the qualification. “**Non-certified**” events do not have the examination option. **All of CC Learning's trainers are fully accredited by AXELOS / PeopleCert, APMG and the PMI® for the relevant courses and workshops they deliver for you.**

All of our courses and workshops can help you if you have a **CPD / Continuing Professional Development** commitment to any professional organisation you belong to. The **PMI®** calls their “unit of currency” for development – **PDUs – Professional Development Units**. **AXELOS** use the name “**CPD Points**” for their scheme to help you maintain your Axelos credential.

See our information sheet about how many PDUs or CPD Points you can earn when you attend a CC Learning course or workshop: [Click Here](#).

For more advice about developing your career see our [Information Sheet](#).
