

PROVIDING SUPPORT
THROUGHOUT YOUR
PROFESSIONAL CAREER

Welcome to CC Learning

We provide a premium learning experience that is clear and concise, specialising in best practice management techniques used in projects, programmes and portfolios; including change, benefits, risk, value and agile management.

LEARN WITH THE EXPERTS

We strive to provide quality training, we do this by having expert trainers with experience and the necessary adult-teaching skills. Our interactive courses use presentations, group practical activities, case studies and practice exams to ensure you gain the knowledge and understanding you need to bring the topic to life.

ROLE SPECIFIC LEARNING

We recognise that not everyone desires nor requires an accredited certification. We offer workshops targeted to introduce technical topics in a non-technical way.

PARTNER WITH BEST OF BREED IN THE INDUSTRY

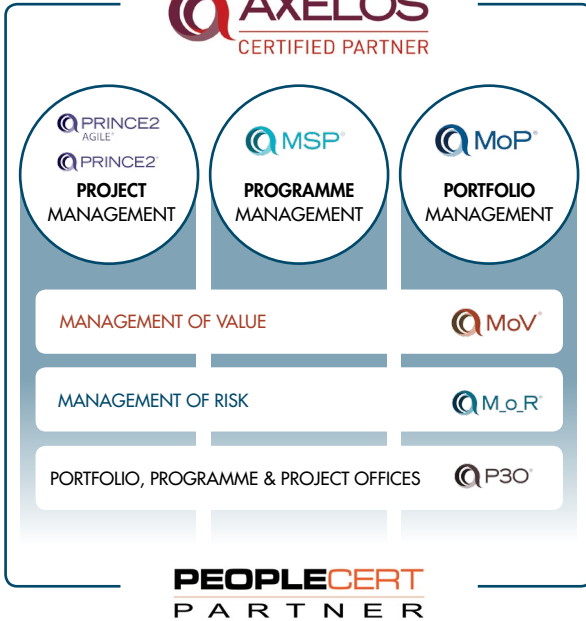

We have scoured the world for organisations and individuals who are reliable, dependable and flexible. We value long term relationships that are built on mutual trust and a time-worn confidence of delivery.

DELIVERY FORMATS TAILORED TO HOW YOU LEARN

Our delivery formats are flexible; facilitator led, online or a mixture of both. Facilitator formats can be modified to fit in with your schedule, using skype, phone or face to face in a group environment. We offer on the job mentoring assistance through shadow working alongside you while you begin to apply your new found knowledge.

CONTINUOUS IMPROVEMENT

We do our utmost to apply the best practises we espouse, gathering student and customer input frequently, using this to enhance our offering through continuous improvement. Regular reviews using our Learning Composite Assessment Tool (LCAT) provides a stream of improvement activities.

PRINCE2® the world's most practiced project management methodology

PRINCE2 is a widely used project management method that navigates you through all the essentials for running a successful project.

PRINCE2 Agile® be flexible, be agile – with control

For organizations and individuals already benefiting from PRINCE2 who need guidance on how to apply agile methods to enhance delivery and blend agile efforts with project management.

Managing Successful Programmes (MSP®) helping with transformational change

Helps to navigate high level managers through management processes, without being prescriptive. Flexible and adaptable to manage benefits and value from projects and programmes.

Portfolio, Programme & Project Office (P30®) to support efforts to deliver change

Usefully aligned to the other AXELOS best practice techniques i.e. PRINCE2, MSP, etc – this is a cookbook for those creating a support structure that will make the most of your investment.

Project Planning & Control™ the practical project management of time, cost and risk

A step by step controls guide from project initiation to execution. Provides a holistic overview of the interdependencies between planning and controls functions. It is a practical and scalable companion to almost any project controls professional. Enables effective capability growth for delivery organisations.

* For PeopleCert certifications, exams are included for sitting in own time (PRINCE2, PRINCE2 Agile, MSP, P30, MoR, MoP, MoV)

Management of Portfolios (MoP®) considerations to ensure you are 'doing the right things'

Other guidance from AXELOS ensures you 'do things right', MoP helps answer the question 'Are we sure this investment is right for us and how will it contribute to our strategic objectives?'

Management of Risk (M_o_R®) key advice on principles, processes and pointers

Broad in scope, M_o_R covers operational management as well as projects, programmes and portfolios. It suits Australian and New Zealand standards as well as meeting the latest financial regulations.

Management of Value (MoV®) better use of resources, better for your bottom line

Integrated with programme management it uses techniques applicable to operational management, MoV links strategic objectives to determine what is needed to deliver the required results.

Better Business Cases™ a systematic approach to the business case development process

A step-by-step guide to developing a business case, setting clear objectives - what you want to achieve from the investment, through to putting activities in place for successful delivery.

Managing Benefits™ the rationale for investment of taxpayers' and shareholders' funds

Consolidates existing guidance on benefits management into one place, while expanding on specific practices and techniques aimed at optimizing benefits realization.

Change Management™ dealing with change and its impact

Based on the Change Management Body of Knowledge it covers change and the individual, communication and stakeholder engagement, change and the organization and change practice.

Agile Project Management (AgilePM®) a generic application of agile project delivery

Based on the Agile Business Consortium method, attempts to balance the conflicting aims of standards, rigour and visibility of project management, with agile's fast pace, change and empowerment.

Project Management Professional (PMP)® and Certified Associate in Project Management (CAPM)® describes running projects, explaining best practice with standards and tools

Prepares you for the relevant exams by working through the latest *PMBOK® Guide* from PMI, the world's leading project management industry association. Helps you speak and understand the global language of project management.
